THE
FIGHT

Mount Vesuvius

The legend that Spartacus led into after his grand victory and escape from the gladiator school

is well-known in Japan because of Pompeii.

The amusing thing I found from the Pompeii excavation findings is that everyone in Pompeii, from the rich to the slaves, had excellent nutrition.

The injuries they had towards the grand things in Roman Cultural System seemed to be out of jealousy.

Trivial Things

Romans loved to drink alcohol after a bath.

The bath → drink combo is simple Roman life.
